

SANTIAGO CAÑU

Full Stack Developer | React.js | Node.js | JavaScript

Bragado, Buenos Aires, Argentina | Remote across Argentina/LATAM | On-site or hybrid in Buenos Aires City | Full-time
santisv4@gmail.com | [+54 9 2342 510893](tel:+5492342510893) | linkedin.com/in/santiagocanu | github.com/santic4 | santiagodev.netlify.app

PROFESSIONAL SUMMARY

Full Stack Developer with more than four years of experience helping clients and teams turn real business needs into clear, maintainable web products ready for day-to-day use. I focus on understanding each process before development, identifying friction points, and proposing solutions aligned with the project's goals, timeline, and priorities. I support every stage - discovery, planning, development, production deployment, and continuous improvement - through clear communication, practical problem-solving, and work organized with Scrum and Kanban.

PROFESSIONAL SKILLS

Requirements discovery | Solution design | Client communication | Prioritization and iteration | Scrum and Kanban | Independent and collaborative work

TECHNICAL SKILLS

Frontend: React.js, JavaScript ES6+, Vite, HTML5, CSS3, SCSS, responsive design, and API consumption.

Backend and data: Node.js, Express.js, REST APIs, WebSockets, PostgreSQL, Prisma, MongoDB, Redis, and BullMQ.

Infrastructure: Docker, Docker Compose, Nginx, Git, GitHub Actions, CI/CD, AWS, Render, and VPS.

Integrations: Mercado Libre API, Mercado Pago, PayPal, Stripe, OpenAI API, OAuth 2.0, webhooks, and Cloudinary.

PROFESSIONAL EXPERIENCE

Independent Full Stack Developer | Freelance | 2022 - Present

- E-Beneficios: developed a corporate benefits platform with a public website, role-based dashboards, payments, analytics, automations, and production operations.
- Flow Sell: built a Mercado Libre post-sale automation SaaS that processed 4,000+ operations and currently manages 400+ products and 100+ active templates.
- Alfíl Digital: implemented a digital products e-commerce platform with checkout, payments, and automatic delivery; it surpassed 1,000 sales and 12,000 visits.
- ZetaData: developed a KPI dashboard and daily processing pipeline for 100+ files, including operational recommendations generated with the OpenAI API.
- Other projects: AXTO App built with React Native, a production WhatsApp bot for a transportation service, and a responsive web calculator.
