PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience building web platforms, e-commerce products, and integrations. I deliver end-to-end products with React, Node.js, APIs, asynchronous processing, databases, and production deployments.

TECHNICAL SKILLS

Frontend: React, Vite, JavaScript, HTML, CSS/SCSS Modules, Next.js.

Backend and data: Node.js, Express, REST APIs, WebSockets, PostgreSQL, Prisma, MongoDB/Mongoose, Redis, BullMQ.

Infrastructure and delivery: Docker, Docker Compose, Nginx, AWS EC2/S3/Lambda, GitHub Actions, CI/CD.

Integrations: Mercado Pago, PayPal, Stripe, Mercado Libre OAuth, OpenAI API, webhooks, and email notifications.

PROFESSIONAL EXPERIENCE

Independent Full Stack Developer | 2022 — Present

E-Beneficios: Built the public application and role-based portals with React/Vite, Node.js, Express, Prisma, and PostgreSQL; implemented operational workflows and Redis/BullMQ background jobs; deployed with Docker, Nginx, and a VPS.

Flow Sell: Built post-sales automation for Mercado Libre using OAuth, APIs, workers, retries, deduplication, and scheduled messaging. Outcome: 4,000+ automated operations, 400+ products, and 100+ automation templates.

Alfil Digital: Built a digital-product e-commerce platform with React and Node.js, Mercado Pago/PayPal payments, webhooks, and automated email delivery. Outcome: 1,000+ sales and 12,000+ visits.

ZetaData: Built a KPI dashboard that processes 100+ daily files and generates operational suggestions through the OpenAI API.

EDUCATION AND LANGUAGES

Education: Coderhouse — Full Stack Development Program; coursework in Web Development, JavaScript, React, and Backend Development.

Languages: Spanish: native. English: technical documentation and professional written communication.
